I. We, the residents of Serra House, support the following goals of the AEL sit-in and the April 3rd coalition:

- A. Cessation and future non-acceptance of research at both Stanford and SRI in Chemical-Biological Warfare and in counter-insurgency; including all classified research, and all ~~the~~ economic and military research being applied to Southeast Asia.
- B. An open decision-making meeting Monday, April 14, with the Trustees and all interested members of the Stanford community on the above issues (I-A).
- C. The need for the faculty to personally and collectively assume the responsibility for evaluating and re-evaluating their own research projects and advisory positions.

II. We also support the tactic of the non-violent sit-in at AEL to implement these goals, and urge that no disciplinary or legal action be taken against those sitting in at AEL.

III. We donate \$50.00 to the sit-in at AEL to be disposed of as the coordinating committee of the sit-in sees fit.

I certify that the following statements were passed at an open house meeting with a quorum of the house present.

Tony Scilliano
