TALK TO TRUSTEE GARDNER ABOUT STANFORD RESEARCH----

The April 3rd Movement invited Trustee John Gardner to relate his opinions on Stanford and SRI to an informal gathering on the Tresidder front patio at 12:30 pm. Mr. Gardner is on campus today to discuss the composition of the Board of Trustees. There are more important matters for him to discuss. All sectors of the community have called for open dialogue on the issues of SRI and military research, but none of the men who will make the decisions have taken the time to explain their views, or what criteria they will use in decision-making. Mr. Gardner could make the time this afternoon. We hope you will find time to come and ask questions and hear what he has to say...
