AMENDMENT TO GUIDELINES

V. Cease all consulting and vacate advisory positions or directorships held by Stanford faculty in the areas of CBW, counterinsurgency at home and abroad, and work related to the wars in Vietnam, Thailand and Laos. Cease all consulting on classified projects.

Explanation: If we are to stop research in the areas of our demands, we must not ignore Stanford's large involvement through faculty consulting and advising.

Implementation

In order to implement this demand, the Review Board will need the following information:

1. For each faculty member, those companies for which he consults; the government boards on which he sits; the topics and approximate time spent in consulting.
