

Since the university is unable to agree on guidelines, and publish them in reasonable time, We, the April 3rd Coalition have created our own guidelines for the university. And similarly, since the Baxter Committee is clearly an inadequate body which has even gone so far as to distort information, We, the April 3rd Coalition shall now implement our own Research Review Board to screen research to be conducted in our liberated commune. Any research which is approved by our Research Review Board may begin in this building. Since the Academic Senate is unable to move in this direction, we shall show them the way.
