

WHO WE ARE

The Coalition Against the War in Indochina is an association of groups and individuals who want an immediate withdrawal of the United States from Indochina. Its purpose is to provide a framework for discussion and action directed to that end.

The Coalition's machinery should be a way the future projects and important information can circulate among those interested.

The Coalition encourages people to present proposals so that they can be considered by those who may want to join in implementing them in the Coalition's name or separately.

Projects to be sponsored by the Coalition as a whole may use the Coalition's "machinery" for any anti-war project provided it does not commit other groups in the Coalition when general approval has not been obtained.

During the weekend get it together in your dorms and with your friends. Talk about what's going on in Southeast Asia and form groups with ideas about what can be done.

A meeting will be held this Monday at noon in White Plaza to discuss the latest news from Southeast Asia and to organize. Bring yourself and any ideas for action which you would like to do.

For further information contact the people at the dome in White Plaza.
